

# nComp25

7 BAR ELECTRIFIED COMPRESSOR

The nComp25 uses oil-free centrifugal compressor technology allowing for a full electric tow along compressor for all construction needs, while generating zero emissions at the work site.

The 'air on demand' feature rapidly produces compressed air when required, leading to greater efficiency, reduced noise and improved safety.

The nComp25 can be charged the same as an electric vehicle allowing for 3 hours of continuous use at full power. It can be converted to hydrogen when supply chains are ready.

Can be used with existing air tools to the same level of performance.

<b>Rated Power</b>	25kW
<b>Peak Pressure</b>	7 Bar Gauge
<b>Power source</b>	77kWh Battery
<b>Battery Life</b>	3 hour (rated power)
<b>Air Flow</b>	100 CFM
<b>Mass</b>	750 kg
<b>Features</b>	Oil Free Air on demand
