

nFlate

MOBILE PIPE LINER INFLATION

Our nFlate provides an easy to use compressor for use for CIPP. Oil free, on demand air and accurate control on flow and pressure, it makes pipe re-lining a fast and efficient process.

- **Battery powered air compressor for pipe liner inflation**
- **Ideal for installation for cured in place pipe lining (CIPP)**
- **Oil free compressor in mobile frame**
- **Fit through doorways and tight spaces**
- **No trailing pipes**
- **Fully controllable pressure**
- **Low pressure, high mass flow**

Rated Power	7.5 kW
Power source	Battery
Battery Life	20 Mins (rated power)
Air Flow	<280 CFM
Mass	50kg
Width	680mm
